COVER

Information

- **How to send files**
  In Adobe Acrobat .pdf "closed" format (PDF / X-1a: 2011 and Acrobat PDF 1.3 compatibility or later) with all the necessary components incorporated (fonts, images, illustrations, etc...). Files generated with a resolution of **300 dpi** for printing - high print quality - and **CMYK** colour mode. Printing is done with Optoservice standard colour calibration. It is recommended, but not required, that the customer provides a test colour print that will be used for colour verification in the printing phase. If a test print is not provided, the publisher does not accept any liability for non-matching colours in prints created from the file sent by the advertising customer.
  The publisher is not liable for the final colours and / or contents of the provided test prints and / or files that do not meet the required technical specifications.
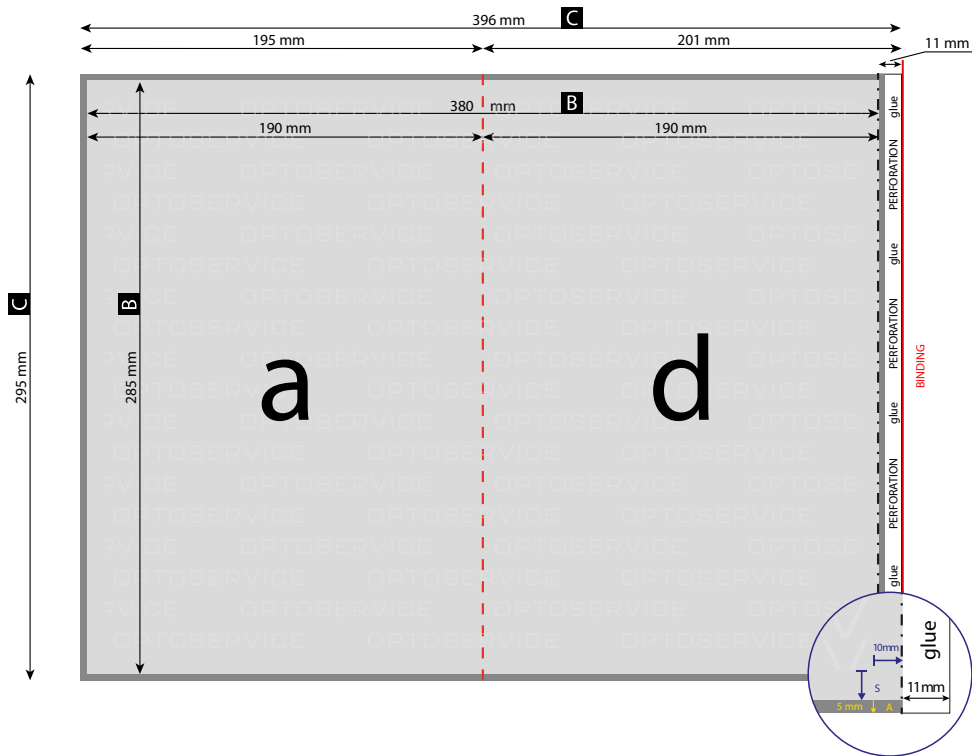

- **Important**
  Files must be created with crop marks.
  Do not include the perforation and fold lines in the file.

Legend of symbol

- ◯ Artwork format
- ⬤ Finished format
- ◯ **Pasted over, not visible area** (not necessarily present in the print file)
- ⊢—S—▸ Safety distance to artwork format
- ⊢—A—▸ **Bleed 5mm** (on each side**)**
- - · - Perforation
- – – Fold / groove / crease
- · · · Seam
